### Aim and themes of the conference:

The aim of the conference is to discuss theorists and practitioners working in the field of sustainable development, and to integrate and network the community of researchers.

We would like to invite everyone working in the field of sustainable development, to participate in the conference. During the deliberations, we will seek answers to the following questions:

- What challenges to sustainable development arise from the current political and economic situation?
- What barriers do we diagnose to achieving the Sustainable Development Goals?
- How do different stakeholder groups (including especially local authorities, companies, universities) practically implement the tenets of sustainable development?
- How to shape Poland's climate and energy policy in the context of sustainable development and the political situation?
- What development challenges, taking into account the principles of sustainable development, are facing Poland, Europe, the world?
